# Haredim attack non-Orthodox at Western Wall

By HAIM SHAPIRO

A crowd of haredim yesterday attacked a group of non-Orthodox worshipers trying to hold a Shavuot service near the Western Wall.

The group of about 100 worshipers incloded members of local Conservative and Reform congregations and members of various study programs, comprising mostly young people, but also families with small children.

Ma'ayan Turner, a rabbinical student at Hebrew Union College, said that the group had gathered toward the back of

PA:

the Western Wall Plaza in the early hours of the morning, after many of them had attended all-night study sessions. She said that a similar service last year had attracted angry shouts and threats from haredim at the Wall, but that last year the police bad ringed the non-Orthodox group and protected them until they completed their service.

Turner said that what particularly upset her was the continued spitting at the worshipers and the frequent cries of "Nazis," an epithet which she had not neard last year.

There were, she stressed, a few in the

crowd who tried to defend them, including a woman who admonished those around her that the worshipers were Jews, and a man who took out his own handkerchief to wipe the spittle off someone's neck.

During the reading of the Book of Ruth, the police told the group they could not protect them if the women continued to wear tallitot. Most of the women wearing prayer shawls then removed them, Turner said.

However, as the surrounding crowd continued to grow during the Torah reading, which was carried out with a small

scroll that the worshipers held in their hands, the police again intervened and said that they could not continue to protect the group in the plaza, and offered to accompany them to a safer spot.

The non-Orthodox group then tried to pray just outside the entry to the Western Wall Plaza, but the police again moved them to an archeological park above the

Reuven Lerner, a member of the Masorti (Conservative) movement, recounted that as he and others were leaving the area of the Wall, his tallit was pulled off a few times. A fellow worshiper had his tallit stomped on, he said. He also said that by the time the group reached the arcbeological park there were brown stains on some of their shirts

"I believe they were from coffee grounds." he said. Police, however, said that bags of excrement were thrown at the non-Orthodox as they were leaving the plaza. Rabbi Andrew Sachs, a Conservative

rabbi, filed a criminal complaiot against the head of Yeshivat Porat Yosef, saying students had thrown garbage at the group from their windows.

Rabbi Pinchas Spectre, director of the Masorti movement in Israel, said that such incidents sullied the name of Judaism,

"It is tragic to have a situation such as this, for people in the name of Judaism to stop others from studying and praying, Spectre said.

Spectre also said that the leaders of the movement would respond firmly to anyone who aided and abened this violence. "We won't sit quietly while violence progresses." he said.

## Congress J'lem policy will hurt peace

By JAY BUSHINSKY and news agencies

A US Congress resolution recognizing united Jerusalem as Israel's capital was praised by Israel and criticized Palestinians yesterday.

The House of Representatives voted 406-17 on Tuesday to recognize Jerusalem as the undivided capital of Israel - a position opposed by the Clinton administration as a hindrance to Middle East peace efforts.

The House also voted to provide \$100 million for moving the US Embassy in Israel from Tel Aviv to Jerusalem.

Describing the legislative move as "obviously reflecting the will of the American people," Prime Minister Binyamin Netanyahu's director of communications David Bar-Illan said, "We are delighted that the Congress has recognized Jerosalem as the undivided capital of Israel and that it will remain so forever."

He also expressed happiness at the prospective transfer of the US Embassy from Tel Aviv 10 Jerusalem in 1999."

Palestinians, who claim east Jerusalem as a future capital, were highly critical of the legislation.

A resolution of obvious support for Israel ... puts a big nail in the coffin of the peace process and the credibility of the United States as a peace broker," PA Higher Educatioo Minister Hanan

Ashrawi said yesterday. Most countries in the world, including the US, have not recognized Israel's annexation of east Jerusalem immediately after the Six Day War. It has been the position of successive US governments that the city must never be divided again, but that its future must be settled through negotiations.

## Gingrich slams killings of land dealers

and news agencies

The Palestinian Authority has rejected statements by US House of Representatives Speaker Newt Gingrich linking conunued aid to the PA with an end to the murder of land dealers, for which he held

the PA directly responsible. Israel, meanwhile, applauded the decision. "We welcome the recognition of what is happening here by the Congress of the US, said David Bar-Illan, Prime Minister Bioyamio Netanyahu's communications director.

The US State Department said yesterday that Palestinian officials who called for the killing of Arabs who sold land to Jews should be "repudiated or fired."

But spokesman Nicholas Burns rebuffed calls by Gingrich for the possible suspension of aid to the Palestinians because of recent he was to be tried. murders of Arabs suspected of making such sales.

Meanwhile, Palestinian police arrested the head of their military intelligence in Ramallah on suspicion of misuse of authority, Palestinian officials said yester-

They said Hussein Alyan was arrested on Tuesday on orders from PA Chairman Yasser Arafat. "Alyan was detained yesterday for interrogation," said Brig.-Gen. Moussa Arafat, who heads military intelligeoce in the West Bank and Gaza, adding that he was still

In an emotional floor speech, Gingrich said: "The Palestinians must be oo ootice that these senseless actions must stop. The vigilante murder of realtors by Palestinian security officials is an egregious violation of human rights and of international norms."

Gingrich called the killings, by bludgeoning and a shot in the head, "Nazi-like." Gingrich was speaking on a "Sense of Congress" ameodment, which expresses the House's opinioo but does not make law.

The amendment, to a bill funding State Department operations, was passed on a voice vote. The United States bas pledged \$500 million in aid to the Palestinians over five years, of which \$220 million has already been distributed.

Burns said senior Palestinian

justice officials, whom he did not identify, "have publicly called for political assassinations. And that's wrong and those people ought to be repudiated or fired."

Speaking at a regular news briefing, he declined to say if he was referring to Palesunian Justice Minister Freih Abu Medein, who was quoted on May 4 as sayiog that Palestinians who sold land 10 Jews faced execution.

Burns said Gingrich was right to call attention to the problem but the administration differed from the speaker "in one respect, and that is, we think that American aid should continue to Palestinians."

"American aid is directed towards the Palestinian people. It does not go to the Palestinian Authority," he said.

# PM, Arafat meet el-Baz today

By JAY BUSHINSKY and news agencies

The timing and venue of the next Israeli-Palestinian talks on renewing full-fledged negotiations depends on the outcome of today's separate meetings between Egypuan envoy Osama el-Baz, Prime Minister Binyamin Netanyahu and Palestinian

Authority Chairman Yasser Arafat. El-Baz is scheduled to meet with minister's Tel Aviv office, after which he is due to proceed to Gaza

for a session with Arafat. His consecutive meetings, the hours likely to transpire and the need to convey explicit instructions to the respective teams may preclude resumpoon of the two teams' discussions today, as originally toteoded.

Netanyahu yesterday conferred twice by telephone with President Hosni Mubarak and spoke with Jordan's King Hussein as well.

Jerusalem is determined to continue the talks, "despite the Palestinians' unsadsfactory position on the need to suppress terrorism and eohance security," a seoior government official said.

But there also was concern about the "preconditions" posed by the Palesonians, particularly their demand that there be a freeze in construccion work at Har Homa and "pause" in settlement activity.

"If they don't come down from that treetop, the talks won't continue," a highly-placed source said. There is no chance the government would give io to a Palestinian demand that work at Har Homa be stopped for an initial two weeks, the source said. "It won't be suspended for even two

could be taken at the current level of representation - Cabinet Secretary Danny Naveh and chief negotiator Saeb Erekat on the Israeli and Palestinian sides.

respectively.
The ultimate decision would have to be made by Arafat, a fact that makes El-Baz's meeting with him potentially decisive.

Arafat adviser Nabil Abu Rudeineh said there has been no progress since talks resumed in tri-Netanyahu at 1:30 in the prime lateral fashion in Cairo last week,

but "the good thing is that the Egyptians are involved. This is important for regional self-respect."

The key Palestinian demand remains a settlement freeze for the duration of final-status talks, which Netanyahu wants to see completed in six months, Abu Rudeineh said.

Osama el-Baz (David Rubinger)

Meanwhile, the EU епуоу Miguel Moratinos denied on Tuesday he had set a deadline for Egyptian efforts to solve the peacemaking crisis Israel and Palestinians. He issued the denial

after Egyptian President Hosni Mubarak on Monday slammed his reported comments. "I'm fully sorry that my declaration ... was misunderstood," Moratinos told Reuter. "The European Union has never put a deadline to the excellent efforts of Egyptian diplomacy.... What I said was if in a certain time there

is no way out, we are willing to evaluate with Egypt and take more decisions." Israeli Radio on Sunday quoted Moraunos as saying if Egypt's efforts failed within the two weeks then the United States, in conjuncoon with the EU, would engage in "comprehensive crisis intervention." ## Smoothing things over preparing the peacekeepers

By ARIEH O'SULLIVAN

United Nations and military liaison officers defused escalating tensions along the borders of Firinam, Tonari and Casedosia last week and helped solve a water-shortage problem threatening to spark a war between the three nations. But don't feel bad if you didn't know about it or if you've never even heard of these nations. All the tensions took place in a simulation game run by the IDF for foreign officers in a base north of Tel Aviv. Twenty officers from 12 nations, including Israel, have spent the past two weeks in an incredibly intensive, first-of-its-kind course learning

## **Hebrew Book** Week opens tonight

Survey: Women read more than men

Thirty-eight percent of Israelis read at least one book a month, with 5.4 percent reading four or more books a month, according to a survey conducted by the Central Bureau of Statistics.

The bureau released the figures to mark tonight's opening of Hebrew Book Week. The survey also showed that more women read books regularly than men. Almost 43% of

women are regular readers, compared to 34% of men. Another survey, by the Gallup organization, revealed that 22.3% of the population read books in the bathroom.

More Jerusalemites read in the bathroom than do people in the rest of the country. Almost 32% of people in the capital read in the smallest room.

The Gallup survey also showed that while 75% of parents here believe that their children read less than they themselves did as children, 26.7% of haredi pareots said that they believe their children read more than they did.

A third of respondents told the Gallup pollsters that they would visit their cities' Hebrew Book Week fairs with more women than men planning to attend. ([tim]

### **State hospitals** to cut services Monday

By JUDY SIEGEL

Activities in the 25 state general, geriatric and psychiatric hospitals will be severely curtailed starting Monday, as bospital directors said they cannot function properly as a result of the Treasury's 20% freeze in their budgets.

In addition, maintenance and administrative personnel at state general hospitals will hold a 24hour warning strike starting this

Directors of the government bospitals, who mer before the holiday, said the freeze - representing NIS 197 million until the end of the year - makes it impossible for the institutions to offer their regular services. The Treasury issued the freeze orders because Health Minister Yehoshua Matza declined over a month ago to sign an order increasing the per-diem hospitalization rate, which the health funds must pay for treatment of their members; Matza argued that such a hike would cause the health funds to collapse, because they have not received an increase in health taxes or govern-

Prof. Ya'acov Hart, head of the Association of Government Hospital Directors, and Dr. Elisha Bartov, chairman of the Government Hospital Doctors Union, said that starting Monday, there will be no non-emergency operations. In addition, all outpauent clinics and the pediatric, gastroenterology and cardiology clinics and institutes would be shut

down. Efforts would be made, they said, not to harm the funcuoning of emergency rooms, obstetrical wards, neonatal and dialysis units and urgent treatment of cancer patients.

They called on the public to avoid going to government hospitals except in emergencies because of the problems facing the state bealth system. Meanwhile, the union of main-

tenance and administrative workers will follow a reduced Shabbat schedule at Sieff, Nahariya, Rambam, Bnai Zion, Hillel Yaffe. Sheba, Wolfson, Assaf Harofeh, Barzilai and Poriya hospitals. Union bead Batya Levy blamed Matza and Health Ministry director-general Prof. Gabi Barabash for "completely ignoring" their promises to solve the shortage of 1.500 workers in the state hospitals. This shortage, she said, prevents staff from providing

patients with proper care. Health Ministry deputy director-general Yair Amikam said that a meeting between Treasury and Health Ministry officials resulted in an agreement that "some" of Matza's demands about funding are justified. The joint teams are due to report back to the prime minister by the end of the month.

However, Treasury officials continue to insist that costs can be cut by NIS 600 million if efficiency measures are carried out, while the Health Ministry says these can result in only a NIS 200 million reduction at most; the health system is suffering a NIS 1.5 billion

Palestinian Authority Chairman Yasser Arafat's ongoing effort to tighten his personal links to Iraqi President Saddam Hussein was deplored yesterday by senior government officials as "not boding well for the Middle East peace process."

Arafat's moves are in step with Syria and Iran, which are seeking a pan-Arab coalition against Turkey because of its military incursion into northern Iraq and believe the Baghdad regime is a natural partner.

The arduous overland trip across the desert from Amman to the Iraqi capital was given as the only reason for his having stayed away. At the same time, Arafat conveyed his best wishes for the speedy recover of Hussein's son. Uday, who was gravely wounded in an assassination attempt.

Disclosure of the letter by Jordanian news media on Tuesday coincided with a report in the daily Ha'aretz that Arafai conferred secretly in Amman with Iraq's ambassador to Jordan, Nuri Bis. Israel was said to have sent a letter to Hussein expressing regret at found out about the rendezvous and to have

The officials recalled Arafai's dispatch of a telegram to Hussein congratulating him on his last birthday and expressing interest in closer relations between Iraq and the PA.

"This says something about the nature of the PA and it is not good," the sources said. The Arafat-Bis meeting and the other cordial gestures to Hussein are unlikely to please US policymakers who believe the traqi regime should be shunned politically and subjected to economic sanctions.

Israeli observers have detected a recent shift in Iraq's attitude toward the Middle East peace process.

Until the Turks began their operation against the Kurdish PKK separatists last month, Baghdad contended that it was up to the Palestinians to decide whether they wanted to opt for peace. But since then, the ruling Baath Arab Socialist party's ideology has prevailed, eliciting traditional Iraqi hostility toward Israel.

Independent Palestinian analysts believe Jordan is not interested in joining Syria and Iran in courting Iraq. They contend that unlike Syria and Iraq, King Hussein has no objections to Turkey's military agreements with Israel and does not sympathize with

### Gaza hit by meningitis outbreak

By JON IMMARUEL

A large-scale outbreak of meningitis in Gaza, mostly among young children, has affected 350 people, hospitalized more than 200 and over 60 new cases are being reported daily, the Hayat al-Jadida newspaper reported yesterday, quoting Palestinian Authority Health Minister Riyad Zaanoun.

This morning Palestinian and Israeli health ministry officials are to meet under the auspices of the civil administration at the liaison office near Erez checkpoint to clarify the exact nature of the disease and what measures if any Israel should take, a liaison committee spokesman said.

Zaanoun was quoted as saying the disease was caused by a virus, possibly in the water system, but that there is no way to immunize children against it. Most of the cases involve children under eight, be was quoted as saying. (Meningitis is an inflammation of the membrane of the brain and spinal cord.)

He refrained from calling it an epidemic, but the number of new cases reported daily has reached 68 in the Gaza Strip's two major cities, Khan Yunis and Gaza City, with the majority in Gaza City.

Zaanoun said that the outbreak has stretched hospital accommodation to its limits, compelling doctors to send bome all but the most seriously affected, after a small improvement is noted in their condition.

Three years ago a cholera outbreak in Gaza, also due to poor hygienic conditions, was broughtunder control within a month.

According to one report in the daily al-Quds al-

Arabi on Tuesday, Jordan's King Hussein is seeking to ease the tensions in his relationship with Syria and is pursuing a "historic reconciliation" with Damascus. At the same time, the Saudi-owned daily Asharq

al-Awsat reported Tuesday that a new chill has set in between Jordan and Palestinian Authority leader Yasser Arafat, who held talks with Hussein in Amman on Monday.

Jordanian officials are said to be angry over Arafat's decision to appoint Assad Abderrahman to a new portfolio dealing with Palestinian diaspora and refugee affairs in the PA cabinet.

The paper says Amman interprets the appointment by Arafat as interference in Jordan's internal affairs by implying authority over Jordanians of Palestinian origin, who are estimated to constitute some 60 percent of Jordan's total population. According to Asharq al-Awsat, Amman fears that the move is a signal to Jordan's Palestinians that their loyalty lies with a future Palestinian entity rather than with Jordan, thereby encouraging "entity consciousness" among Palestinians in Jordan.

The paper also noted that most Palestinian officials accompanying Arafat to Amman refused to comment on the issue, but Fatah Central Committee member Mohammad Ghnaim suggested that the Jordanians were overreacting.

Gnaim noted that the PLO bad always maintained a department dealing with diaspora and

He also said that Palestinian refugees lived not only in Jordan but also in Syria, Lebanon, lrag, the West Bank and Gaza: "It is not a matter that concerns only Jordan," he explained.

Asharq al-Awsat reported that Palestinian circles in Amman are convinced Jordan's anger was not provoked by the establishment of the new ministry, but rather by Egypi's emergence as the key player in Palestinian-Israeli negotiations.

Hussein, they say, won bigh marks in Washington for helping to break the impasse over the Hebron negotiations and now feels he has been

supplanted by Egypt. Meanwhile, al-Quds al-Arab reported that Hussein's apparent rapprochement with Syria's President Hafez Assau is intended to persuade Damascus to end its support for various Jordanian opposition groups.

One unmistakable sign of his intentions, noted the paper, was a speech he delivered in the northern town of Irbid at the weekend in which he spoke warmly of Assad's regime but criticized its support for Jordanian opposition parties and pro-fessional associations which he condemned for maintaining "external links."

Another sign was Hussein's decision to appoint veteran former prime minister Zaid Rifa'i as speaker of the Senate, the unelected upper bouse parliament, following the resignation of the Ahmad Lozi.

Rifa'i, a lifelong friend of Hussein, is considered to be close to Syria and his appointment to high office is seen as a reflection of Hussein's wish to improve ties with Damascus.

## Fighting in Congo despite ceasefire order

BRAZZAVILLE - President Pascal Lissouba and the leader of a private militia agreed to a ceasefire yesterday to halt the civil war that has devastated the Congolese capital, but fighting continued.

"I'm ordering a cease-fire from this moment," Lissouba said on national radio. His bitter rival, Gen. Denis Sassou-Nguesso, went on his own private radio station to announce that he had agreed to a cease-fire as well.

But French soldiers, journalists and hundreds of civilians seeking shelter had to dive for cover when a burst of automatic rifle fire crupted near their base at the international airport shortly after the announcements.

A 10-year-old boy suffered a slight injury to his hand from a bullet, and the fright reduced some of the estimated 400 civilians - already badly shaken by a week of fierce fighting - to tears.

Sassou-Nguesso's radio continued broadcasting anti-government statements and calling for government soldiers to come over to the militia side.

French armed forces evacualing civilians from the strife-ridden Congolese capital hoped to fly a further 200 out before night fell yesterday, a military spokesman said.

But with exchanges of fire still coming as close as 50 metres from the airport building where they were sheltering, the spokesman said it had been decided to ferry more than 200 others, for whom there was no hope of evacuation yesterday, back to safe sites in the city.

He said the civilians, of various nationalities but including only a few French nationals, most of whom have already been flown to safety, would be transported in buses and cars under heavy armed escort.

"We are not abandoning you.

we are going to get the maximum number of people out of here. Those who have to go into town - it is for your own security." a French officer assured the civilians.

Fighting between forces loyal to the two men broke out Thursday when Lissouba sent in troops to disarm Sassou-Nguesso's private militia, the Cobras. Lissouba had sought to immobilize the militia in the run-up to next month's presidenual election, apparently fearing Sassou-Nguesso would use his forces to forment civil unrest and hurt Lissouba's chances of

winning re-election. Heavy fighting with mortars, machine guns and grenades pounded Brazzaville until day-

light, when it subsided slightly. French troops ventured into the enviousk up civilians, including many crowded at the French ambassador's residence, and carried them back to the international airport's private Aeroclub.

## Libya says it will hand over ockerbie suspects

CAIRO (AP) - Libyan leader Muammar Gaddafi says he is prepared to hand over two suspects wanted in connection with the 1988 Pan Am bombing over Scotland for trial anywhere in the world except the United States and Britain.

"Apart from these two places, Libya will agree on any place suggested by the international community," Gaddafi said, in a speech monitored yesterday by the BBC.

The BBC said he made the speech in the Mediterranean port of Darnah to commemorate the 27th anniversary of the evacuation of US military personnel from Wheelus Air Base near Tripoli, the Libyan capital, on June 11, 1970.

A total of 270 people were killed in the bombing of the Pan Am jet over Lockerbie, Scotland, which led to the 1991 indictment in the Abdel Basset Megrahi and Lamen Khalifa Fhimah and UN sanctions on Libya the following year.

The two men, also wanted for trial in Britain, have long been on the FBI's "Most Wanted" list but are believed to be in Lihya. The US wants them extradited to face

"It does not matter whether the two suspects have been charged or not, the important thing is the trial." Gaddafi said, according to the BBC, "This is the request of the families of the victims ... it is also our request. The suspects in the Lockerbie case must be brought to justice." Libya has in the past said the two men cannot be guaranteed a free trial in Britain or the US and, instead, made several offers to resolve the issue. These included handing them over to the World Court in The Hague or to a third country to stand trial.

The United States and Britain have consistently rejected these offers and it was not immediately clear why the Libyan leader is repeating his offer to hand over the two men to a third country.

Earlier this month, relatives of the ter sent to them by Libyan officials as a "propaganda ploy" to get the UN to lift the sanctions on Libya. The letter, unsigned and sent from Libya's UN mission in New York, says Libya is "ready to enter serious negotiations ... regarding the procedures leading to a trial'

## Hague emerges as new Tory favorite

of the two Libyans.

LONDON (AP) – William run against Major in the 1994 Hague, the 36-year-old boy wonder of the Conservative Party, emerged as the hot favorite yesterday to win the three-way race to lead the devastated party.

Political pundits and bookmakers agreed that the former Welsh secretary came out of the first round of balloting as the candidate to beat. Hague has positioned himself at the political

center of the party.
Former finance minister
Kenneth Clarke, 56, comes from the party's left wing and led the five candidates in round one of the race to succeed former Prime Minister John Major.

Bot Hague - who ran a close second - became the front runner after the two candidates with the lowest vote totals dropped out of the race and threw their support behind him.

Hague's supporters yesterday urged right-wing standard bearer John Redwood, who placed third, to stand aside so he could face a runoff against Clarke in the sec-

ond round next Tuesday. But Redwood, 45, who resigned from the Cabinet two years ago to

not quit. "This is going to be an exciting, close and unpredictable race," he told a news conference. "You just watch: this team is going places." Both Redwood and Clarke predicted they will pick up votes from supporters of the two candidates who dropped out, former Social Security Secretary Peter Lilley, 53, and former Home Secretary Michael Howard, 55.

Major announced his resignation as party leader immediately after the Labor Party's massive victory in the May 1 election. Hague has positioned himself

in the center of a party splintered by the right wing's opposition to closer ties with the European Union.

The 164 Conservative lawmakers voting in Tuesday's ballot gave Clarke 49 votes, Hague 41 votes, Redwood 27 votes, Lilley 24 votes, and Howard 23 votes. In the second round of balloting, a candidates needs a simple majority of 83 to win, If there is no winner, the top two candidates will face a runoff on June 19.

## McVeigh's mother testifies

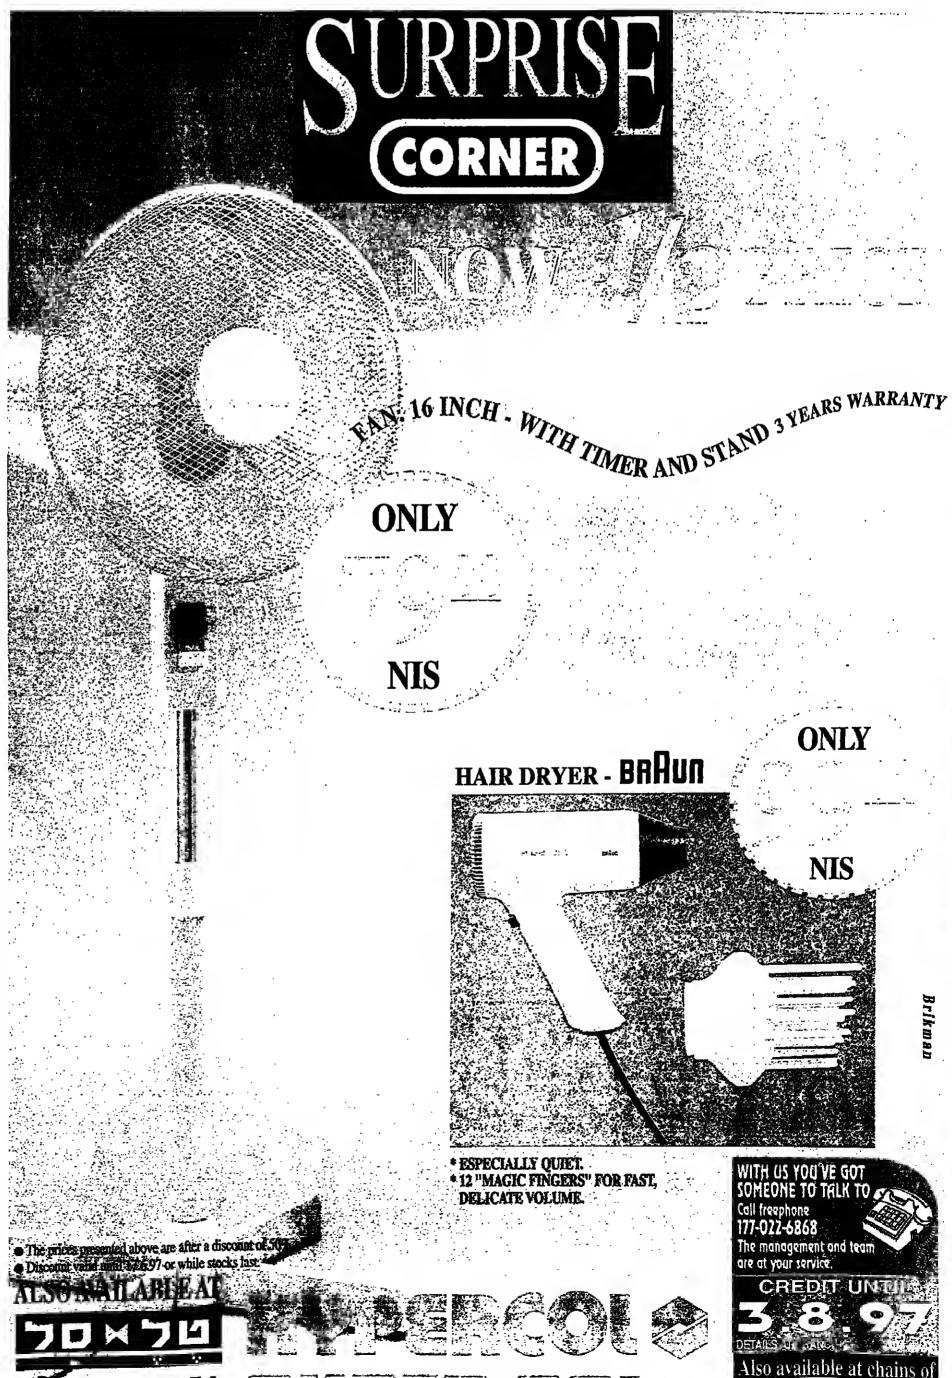

DENVER (AP) - Timothy McVeigh's mother was the final witness yesterday as the defense rested their four-day case, leaving it up to jurors to decide whether the convicted Oklahoma City bomber should be sentenced to die for the deadliest act of terrorism on US soil. McVeigh's tearful mother said her son is a human being who deserves to live, "not the monster he's been portrayed as." Defense attorneys then rested their penalty phase case and US District Judge Richard Matsch recessed

court for the day. Closing arguments are set for today. The same panel that convicted life. He is a human being.

Americans bave been watching the case closely, and national polls have shown that most believe McVeigh should receive the death penalty.

As an exercise in sampling the Hong Kong experience, it was pretty low key.

And that's how Hong Kong would like things to stay. Of all the issues thrown up by the British colony's return to Chinese rule on July 1, few are more sensitive than the prospect of Chinese soldiers roaming the city.

People in Hong Kong have too many negative images of the People's Liberation Army.

Older people, refugees, remember it as the enforcer of the communist regime they fled. A more recent memory is of PLA troops gunning down unarmed protesters around Beijing's Tiananmen Square in 1989.

Others, lonking at the army's involvement in Chinese business, imagine arrogant, corrupt officers muscling in on Hong Kong's busi-

HONG KONG - China huried months of speculatioo yesterday by announcing that its head of state, President Jiang Zemin, will attend the ceremony marking the handover of Hong Kong to Beijing at midnight on June 30.

This first visit to the territory, a British colony for 156 years, by a top leader of China and the chief of its Communist Party is due to last just a few hours.

Jiang will return to the Chinese capital for Beijing's own celehrations of its recovery of sovereign-

ty over Hoog Kong.

But he will remain long enough to attend an investiture ceremony for the post-colonial administration that has all the makings of unraveling ioto a diplomatic nightmare.

British Prime Minister Tony Blair also ended weeks of speculation yesterday and confirmed he would be attending the ceremony to mark the handover.

Blair, asked in parliament whether Britain owed a moral duty to the people of Hong Kong which would not end with the handover ceremony, told the House of Commons: "I do agree. I think that is important. I will be attending

the ceremony myself."

But US Secretary of State
Madeleine Albright's decision to boycott the ceremony for Hong Kong's unelected legislature threatens to cast a shadow over its swcaring-in, with Gov. Chris Patten suggesting others might follow her lead.

China reacted coolly Tuesday to the news from Washington, saying guests attending the change of sovereignty must make their own decisions.

A member of Hong Kong's incoming government hinted that guests who boycotted the ceremony risked damaging their country's relationship with China.

China plans to disband Hong Kong's elected legislature and replace it with a largely self-selected provisional body, swearing it in

## Sri Lanka army mops up after big Tamil attack

COLOMBO (Reuter) - Sri Lankan troops began clearing northem areas yesterday after a huge attack by separatist Tamil guerrillas oo the army's forward defenses left more than 250 dead, the Defense

Elam (LTTE) rebels took part in the pre-dawn attack on Tuesday on the army's defenses at Thandikulam and Nochchimoddai, north of the overnment-nei o frontlioe town of Vavuniya, 220 km north of Colombo.

The rebels made a desperate attempt to attack the army's field headquarters and artillery gun positions at Thandikulam, the statement said. The attackers persisted into Tuesday night, but security forces defending positions held on, it added.

The situation was brought under control completely by the troops, forcing the terrorists to withdraw northwards with their dead and wounded," it said. The attack, the biggest by the LTTE since security

forces launched a major offensive into their northern Wanni stronghold on May 13, left at least 58 special forces troops and 210 rebels dead, according to the Defense Ministry.
But military officials said they had recovered 70

bodies of soldiers as of yesterday afternoon and added that the final loss to the military could be as high as 100 dead.

The ministry statement said 12 officers, 86 troops. and more than 300 rebels were wounded in the attack. An aid worker in Vavuniya told Reuters that five g a seven-year-old girl, nad been killed in the fighting. Some 35 were wounded and admitted to Vavuniya hospital, he added.

## Chretien reshuffles cabinet

OTTAWA (AP) - Canadian Prime Minister Jean Chretien retained popular finance and foreign ministers, but made changes in most other posts yesterday as he overhauled the Cabinet for his second term.

The new, 28-member Cabinet contained only five oewcomers. but many prominent veterans were shifted to different portfolios following a closer-than-expected victory for Chretien's Liberal Party in the June 2 federal election.

Among the senior Cabinet members given new posts was Allan Rock, named health minister after a rough stint as justice minister dealing with such controversial issues as gay rights and gun control. -

Chretien also dropped Sheila Copps, whose combative style sometimes caused her problems, from the post of deputy prime minister. She kept her post as beritage minister, to handle issues such as public broadcasting. national parks and cultural policy.

The two most influential

Cahinet ministers remain in their posts. Finance Minister Paul Martin has won praise for slashing Canada's deficit hy two-thirds since 1993, while Foreign Minister Lloyd Axworthy has gained popularity for defending Canada's relations with Cuba against US criticism.

Copps was replaced as deputy prime minister hy Herb Gray, a long-serving member of Parliament who had been solicitor-general, overseeing federal police and prisons.

Rock was replaced as justice minister by Anne McLellan, a former University of Alberta law professor who had heeo natural resources minister.

In the election, the Liberal Party fared poorly in the two westernmost provinces, Alberta and British Columbia.

To shore up support in British Columbia, Chretien named former Transport Minister Dayid Anderson - who is from the Pacific province - as the new fish-

For example, two packages of "nylonit" were sold at NIS 9.99 instead of NIS 9.49, as was listed on the product. A box of "Rollers" cereal from Telma was sold at NIS 14.55, instead of the NIS 12.90 which was listed on the

f the peace process over gets back on track, tanks may someday withdraw from the region's battlefields. But on the fashion front, tanks have invaded, and it's going to take a major revolution to effect a retreat.

No matter whose collection you look at, tank tops feature prominently in the season's convoy.

Bracha Bar-On's clinging, lowcut version is provocative. Dorit Sadeh's neckline is just a tiny bit higher and her fit a tad looser, which, coupled with the tiny check fabric, gives her creation a little more class.

Max and Co., which also favors a looser fit and better quality, goes in for higher necklines hut shorter skirts.

At Hamashbir, the fabrics are mainly synthetics, the hemlines slightly lower and the silhouettes designed for comfort, both in Hamashhir's own private-label groupings and those of other manufacturers whose merchandise it markets.

Gershon Bram gives a hint of Empire-line amhience to his tank dresses by incorporating a horizontal seam below the bust. In his fancier offerings, the seam is enhanced by a satin ribbon.

ALMOST as pervasive as tank tops are slip dresses. Dorin Frankfurt has both long and short versions, which even at sale time are a little too expensive, considering the workmanship and the fact that similar items are readily available for under NIS 100 at all bazaar shops that stock clothing.

The beauty of the slip dress is that not just secular women can

Whereas tank dresses are often somewhat tailored, which makes wearing a blouse or T-shirt underneath them awkward or uncomfortable, the slip dress is frequently worn over a T-shirt.

Only a couple of years back, the wearing of T-shirts under sleeveless dresses of any kind was the summer uniform of the national-religious camp.

Today it's a general trend which blurs the divisions between the religiously observant and their secular sisters. Although it tends to look a little shlocky, around these parts ease and comfort are important considerations. No one wants to feel constricted io the heat of an Israeli summer.

Mini-leogth slip dresses offer several options. They can be worn solo or as tuoics over Bermuda shorts, pants or straight-falling maxi skirts. sexicr by being tucked inside skirts, shorts or pants, and they look great under mannish shirts tied at the waist. Those made of flimsier fabrics can also double as sleepwear.

All of this began in 1989 when a writer with Conde Nast Traveler magazine called Leatherman as be was preparing for a trip. With little time to talk, he just rattled off his favorite beaches in the US. When Leatherman returned from

his trip, he saw the magazine. On the cover was the tease: "Top

What? The home of Baywatch and the Beach Boys doesn't make the list?

Too crowded, says Leatherman. Also, the water is too cold and the waves are often hig enough to be considered dangerous.

So what about the beaches near his home, like those in Ocean City, Maryland?

Leatherman says erosion has taken its toll on many mid-Atlantic beaches, making them too narrow

for his liking. His ideal beaches are in remote corners of Hawaii or the Florida Panhandle, with fine, white sand and gentle, warm waters.

As with all of Leatherman's winners, Hulopoe will be retired from the list after this year, giving a chance to some other beach.

Leatherman said he will keep doing the list, partly because he believes it may encourage officials to keep their resorts clean and accommodating.

### Cohabiting with Europe's voters

In an opinion poll carried out on NBC-Europe's Internet site last week, nearly 70 percent of respondents said job creation was a more important political priority than monetary union. Even allowing the generous assumption that many of the remaining 30 percent favoring the monetary issue were suggesting hoth should be given equal attention, it was a significant tails call for the proposed new euro

The vote of the computer-literate Europeans tallied well with other indications that a hattle is hrewing between the eurocurrency enthusiasts and the status quo warriors. A more scientific poll yesterday revealed a similar large majority - nearly 60 percent — of French people think likewise. They said the new Socialist-led government of Lionel Jospin should seek from its European partners new conditions for joining a single currency, rather than stretching the economy and the social fabric to hreaking point just to meet the criteria set by the Maastricht Treaty for monetary union by 1999 — mainly the strict three percent deficit target.

European Monetary Union (EMU) may already have lost the battle — but its supporters seem determined to slug on at any cost. The German government was badly bruised by the recent debacle over the Bundesbank proposal to revalue the gold reserves to meet Maastricht criteria - a move ridiculed by the media as "cooking the books," The recent French elections provide a fine metaphor. The French electorate chose Jospin and his sturdy old socialist (namely employment) values — putting a final boot into the Gaullist arrogance of a presidency that has too often grown used to believing it has a right to tell the French what to do rather than ask them. This also is how many Europeans feel about European Union diktats from Brussels and the growing resistance to the Maastricht straitjacket could easily develop into a union-wide

struggle between the suspicious voters and their over-enthusiastic leaders. In the last six weeks, Britain, France and Ireland have given their governments the boot, ignoring in the process (in the case of Britain and Ireland) the administrations' spectacular economic successes.

Yet French President Jacques Chirac, smarting from hlunder in calling the election, seems determined to ignore the mood of the electorate and to use bis presidential authority in foreign policy to insist the Jospin government stick to the timetable for monetary union. French European Affairs Minister Pierre Moscovici said he wanted a delay to study again the EU pact agreed on in Duhlin late last year. Thus, already France is speaking with two discordant voices in advance of next week's crucial European summit in Amsterdam - as many predicted it would and Chirac pooh-poohed.

The wider issue represented by the "French metaphor" is that a struggle has begun to define whether the European Union is to be primarily an economic or a social entity. Thus Jospin and probably to a less ideological extent Britain's Tony Blair - need an EU agreement to halance the Maastricht package with economic and employment clauses at the summit.

If traditional European attitudes were to prevail, social and employment concerns would be likely to win out over cut-and-thrust free marketry and monetary union. But with a fiercely competitive United States breathing down their necks, the Europeans are not so sure any more. After all it is downsized and globalized America that has both market success and a 4.8 percent johless rate. Other Europeans may scoff at the troubles of Jospin and Chirac "cohabiting" but their conflicting attitudes are no different than a European Union that seems to be losing sight of where it is going. It had better decide soon, and decide clearly, or fall apart at the seams like an Italian government.

#### Pride of Africa

Pirst Liberia, Angola, Rwanda; then Zaire, Sierra Leone, and now Congo. The onward march of Africa's conflicts seems relentless, driven not by a hunger for democracy, but by a lust for power, revenge, or a Swiss

There are areas of hope of course - Uganda is often cited, though the murky shadows of its involvement in former Zaire remain unexplored.

Rebellion, coup, contrived instability and assassination remain the pathways to power across most of Africa. There is never enough money for infrastructure or development - there is always enough for mountains of arms and palaces of kitsch. If the survival of the fittest is nature's way, Africa must be attempting to evolve the dictator as a viable species.

Yet again, it is only South Africa that provides any hope for the continent - one of the richest in the world in human and natural potential. Unfortunately, there is precious little sign of the unfortunate states of Central Africa learning even the most fundamental lessons from the way South Africa has transformed itself from an apartheid caterpillar to a rainbow butterfly.

While Nelson Mandela's new state is bent on

LETTERS TO THE EDITOR

forging a united multi-racial society, its neighbors to the north remain far too busy killing one another, for whatever obscure reasons, to even try Mandela's way. Yet they and the ludicrously pompous and ineffectual Organization of African Unity have become more dependent week by week on South African diplomacy to save them from an even worse rate

A minor new item yesterday probably passed unnoticed amid the gunfire across Africa. A key American credit rating agency gave South Africa its second investment grade credit rating (BBB minus), indicating growing confidence in the country. The South African finance ministry pointed out that the rating is significant since certain US investors are restricted in terms of their investments when a country lacks two such investment grade ratings from US-accredited agencies. South Africa can now access a wider array of capital sources in the United States, as it continues its steady journey as a major emerging nation.

One can only wonder when the penny will drop in the Congos and other blighted nations. Mandela in a couple of short years has become the pride of Africa, in a continent whose leaders have little else to be proud of.

Sharon's views were rejected. His outlook was in direct contrast to the oft-repeated claim of

Rahin/Peres that they had saved Israeli soldiers from the quagmire of Lebanon.

We are bringing the boys back home," was the repeatedly-trumpeted slogan.

What happened to the brave words of left-wing politicians and their self-proclaimed intellectual elite, who claimed they could solve the Lebanese riddle (in contrast to the macho pretensions of

So sure were they of their intellectual superiority that they didn't even notice that stepping into the vacuum left by the PLO's departure was a Syrian- and Iranianfinanced terror organization called Hizbullah.

Rabin stood passively hy as these PLO clones built up their infrastructure into the powerful (and still-expanding) force it is

Rabin became Israel's longestserving defense minister. Other than a two-year break in 1990-2 when Moshe Arens held the post, Rabin remained at the helm of defense until his assassination, even while he served a prime min-

LATE in the day, Rahin, basically a realist, came to the conclusion that Israel's South Lehanese Army allies just didn't have the strength needed to hold Hizbullah in check. He saw the danger huilding up against Galilee, and had no choice but to send the IDF back - in increasing numbers - into the quagmire. The promise to pull our boys "out of the Lehanese mud" was forgotten.

Israelis are still bogged down in Lebanon, fighting, and dying. Over 400 have been killed in the post-Lehanese war period, and the

losses occur with heart-wrenching regularity. Hence the understandable anger and hitterness of the parents who are demonstrating.

The security zone remains indefensible, as the IDF fights under frustrating political restraint, one hand tied behind its back. In an attempt to avoid casualties

the air force has been sent in repeatedly, and it does succeed in destroying targets here and there. But in no way does it seriously weaken Hizbullah's ever-growing armed muscle.

In July 1993 Rahin, in his twin roles of prime and defense minister, launched his massive "Accountability" bombardment of Hizbullah targets. There was not even a whimper of protest from our "intellectual elite," even if here, large as life, was the much-denigrated Likud "brawnnot-brain" mentality, back in all but name.

The inevitable truce took place, with Israel agreeing to an accord unique in military history. Hizbullah was given a license to

kill Israeli soldiers in the security zone. Their "concession" to us was an agreement not to fire rockets across the border. When Peres took the helm fol-

lowing Rahin's death, he also paid the price of living with an inadequate security belt in the north. This ultra-intellectual-turned-

warrior saw his Grapes of Wrath operation result in the accidental slaying of 105 Lebanese civilians at a UNIFIL base at Kana. The world was reminded of

Kana this week, when the UN demanded \$1.78 million from Israel as compensation for its losses - overlooking the fact that its harboring of civilians at a UNIFIL base was totally illegal in the first place.

While one cannot hut feel for the parents demonstrating for the safety of their sons in Lebanon, they must realize that it was bad decisions made by those in power over the past 12 years that created the current no-win situation.

The parents' anger and trepidation is valid, but national security considerations must take precedence over emotion.

It is clear that if Israel leaves the security zone, the IDF will soon be fighting Hizbullah in Galilee.

Sir, - Lag Ba'omer is behind us and we hope that most of the supermarket trolleys taken without permission (stolen) to transport firewood for the bonfires have been returned. Those used for distribution of magazines no doubt will be retained by their new "owners." Apparently the parents see no wrong in this appropriation of others' property.

The same disregard can be seen in collection of car emhlems and spray painting of decorative Jerusalem stone walls. Respect for others' property should be instilled at an early age by kindergarten and primary-school teachers if the parents are unable or unwilling to do so. DĂVID BRASS

Nachtwei, along with Green parliamentary colleagues Volker Beck and Helmut Lippelt, last fall took exception to a proposal from the German Finance Ministry to offer DM 20 million a year in compensation to Jewish oon-Jewish Nazi victims in

Eastern Europe. "We do oot see how DM 20 million in the 1997 financial year for all remaining Eastern European states taken together could permit a level of benefits that we can morally justify," the three said in a letter to the government. They wanted at least twice that amount.

Nachtwei especially was incensed that Waffen SS veterans in Latvia receive pensions averaging DM 300 a month, while the survivors get nothing. "The situation of the survivors is a scandal. With the Waffen SS, it is a double scandal," be said.

The government spreads the

categorically rejects suitable, appropriate and bonorable compensation, and continues to discrimmate against Nazi victims," Nachtwei said.

In the meantime, Nachtwei has takeo up a private collection for the Latvian survivors, becoming a source of material belp they do oot have from anywhere else. Since the Maikovskis case, Nachtwei has collected more than DM 70,000 for what he calls his "emergency relief account."

Alexander Bergmann of Riga, spokesman for the former ghetto and camp prisocers of Latvia, met propaganda that it does a lot, but it Nachtwei in Riga in 1993. "I don't

"Stalin said that if there exists a person, there exists a problem. If the persoo disappears, the problem disappears," he said. "The people who refuse us also think this way. We will soon disappear from this world."

Duriog a recent visit Washington, Bergmann vowed that the Latvian survivors and Nachtwei "will struggle to the end." But be end." But be added: "What we are doing is like a mosquito bite. It is oot deadly; it

just itches for a while."

NACHTWEI'S ROAD TO Riga began in 1988, when he visited Belarus with a German peace group. For the first time, he heard about the Wehrmacht's genocidal methods against the civilian population. Next, he read a book on the Einsatzgruppen, which included a list of the Jews of Muenster who had been deported to Riga. The next year, he made his first trip to Riga; it was the first of 10 to

"It's unusual, the way he puts himself ioto this tragedy of "In his case, local is Eastern Europe," Welles said. "It's Muenster, hut also Riga."

unusual, the way he went forward to bring to young Germans the horrors of the Second World War."

His efforts are not limited to the

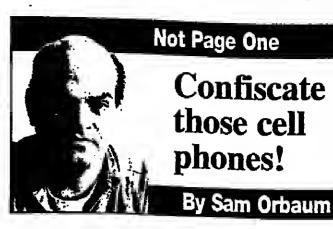

struggle for compensation for survivors in Eastern Europe. Nachtwei also plotted a savvy maneuver to commemorate Bikernieki Forest, where the Nazis and their collaborators shot more than 40,000 people, including most of those from the Riga ghetto. Bikernieki Forest "has for years been a forlom place, the bodies of the victims burned, buried, almost forgotteo, Nachtwei said. He was agitated that, although there has been a German military cemetery in Riga since 1991, Germany had taken no ioitiative to ensure that the mass graveyard at Bikemieki was preserved in a decent manner. The small Latvian Jewish community cannot afford to properly mark or maintain it.

A "war graves agreement" between Germany and Latvia came into force last year. Nachtwei "saw the angles and played them brilliantly," said Nicholas Lane, head of the internacional affairs commission of the American Jewish Committee. The graves agreement is intended to facilitate the "dignified preservation and upkeep" of German war graves in Latvia. Those who qualify as "German war dead" are members of the German armed forces and "persons of German nationality" who were deported and died in the forced migrations.

Technically, German Jews were deprived of their citizenship, but Nachtwel persuaded the German War Graves Commission to create and care for the graves at Bikemieki, in consultation with the Jewish community. For the first time, the mass graves of former ghetto and conceotratioocamp prisoners - which are mostly those of the thousands of German Jews who were transported to Rica - will qualify for support as "German war graves."

"I see some success - not great success, which we need, but some steps," said Nachtwei, who is now 51. "If you see only the mouotain, it is too big. If you can find the right step, the mountain seems smaller.'

"Wini is oot a prominent national figure in Germany. He's a local Muenster politician," said Lane. "In his case, local is not just

Nevertheless, during the simulated crisis, Israeli trainers would interject their expe-

this: "Being a liaison officer is dealing with ioitiatives and responses. The LO is always reacting and making problems go away and finding a solution on the ground without going to the higher level." And some of his tricks of the trade won't appear in textbooks.

"Sometimes the LO can't be too eager or always easy to get hold of. Make the other side come to you sometimes. In agreements never be vague. In threats, being ambiguous helps," Darel said. Lt.-Col. Siegfried Wolf, a veter-

#### Honda hoping to triple China JV Investment

Japan's Honda Motor Co Ltd is hoping to triple its investment in an automobile parts joint venture with southern China's Dongfeng Automotive Group, a company official said yesterday. Honda had applied to the Chinese government to expand its \$25 million parts venture with Dongfeng in Guangdong province to make whole engines, said Koji Kadowaki, president of Honda Motor (China) Ltd. "The amount will be significant, almost triple what it is now," Kadowaki said but declined to give an exact figure, saying the proposal had not won approval yet.

Engines made under the expanded venture would be primarily for export but Honda would also try to sell them domestically, Kadowaki said in an interview. The engine venture would also boost Honda's efforts to start producing whole cars in China by beloing it meet requirements that joint venture cars be 40-percent localized, he said. "Honda always wants to make cars in China. This has not changed, we just oeed an opportunity," Kadowaki said.

Honda was also talking with Dongfeng about the possibility of making a mini-car and was interested in acquiring a stake in Peugeot's troubled Guangzhou plant, he said but declined to give details. Several auto makers, incloding General Motors, Ford, BMW and South Korea's Hyundai, have expressed an interest in taking Peugeot's place in the project if the French car firm abandons the plant. If granted the chance to make cars in China. Honda would likely initially produce the higher-end Accord model but had its sights set on making the cheaper Civic compact, he said. Honda also bad three joint ventures in China producing about 500,000 motorcycles a year, he said, adding that an annual market of about eight million units meant Honda was not looking for new partners in that area.

The decision brings the SFA's actions relating to the collapse of Merchant bank Barings in 1995 to a close.

#### rreignuiner makes leap with takeover

US truck maker Freightliner Corp, a unit of Germany's Daimler-Benz AG, has made a major competitive leap with its acquisition of Ford Motor Co's heavy truck business, Daimler's commercial vehicle chief said yesterday. Kurt Lauk said the takeover would help Daimler commercial vehicle operations to reduce costs and vastly expand its sales network. "It is the perfect acquisition," Lauk said. "Freightliner has made a big step into a business in which we were under represented."

On Tuesday, Daimler announced it had won US regulatory approval to buy Ford's heavy truck business, completing a deal first signed in May. Although both Ford and Daimler have refused to disclose terms of the deal, Daimler said it would mean an additional \$1 billion in sales revenues and unit sales of

Lauk said Ford's business, which is strong in the construction market was a perfect fit with Freightliner's leading position in the long-haul truck market, but lacked in other business areas. The marriage would also help to balance out sales for Daimler's US truck operations as the two market segments react differently to economic cycles, he said. Freightliner further stood to benefit from the 250 Ford truck dealerships that Daimler will receive in the takeover, bringing its total number of US truck dealerships to 550.

# Germany ready to agree on EU jobs chapter

By FIONA FLECK

BONN (Reuter) – Foreign Minister Klaus Kinkel said yesterday the German government would agree to add a jobs chapter to the Maastricht Treaty on condition it would not incur extra spending for "unfinanceable" job creation schemes.

Kinkel's remarks signalled Bonn was dropping long-standing opposition to the proposed chapter and bending to pressure from France's new left-wing government, which insists the European Union must do more to improve dire unemployment in

"We do oot want any unaccountable. unfinanceable or expensive spendiog programs," Kinkel told the German lower house of parliament in a governmeot statement on the forthcoming EU summit

An improved coordination of national measures on a European level can take us further. On these terms, the German government will agree to a jobs chapter," Kinkel said opening a parliamentary debate.

Chancellor Helmus Kohl's center-right coalitioo proposed a parliamentary motion, which was due to be voted on after the debate, insisting that the coalition would not agree to any initiative involv-ing the transfer of EU additional

Kinkel echoed its sentiment: "Unemployment is the top priori-ty. Eighteen millioo people in Europe have no job. That is the greatest challenge for politicians and that is where the chief responsibility of the EU member states lies," Kinkel said.
"We want to create jobs but this

is not just something that can be done by adopting articles of a treaty," said Kinkel, who is also a member of Kohl's junior coalition partner, the pro-business liberal Free Democrats.

Germany had opposed the idea of a jobs chapter for years, fearing it could lead to economic growthled policies that in turn would counteract the monetary discipline a future independent European central bank would seek to

But Kiokel said earlier in a oewspaper ioterview Germany was prepared make a compromise on the issue and back France in its

drive for jobs.

Asked about the rescinding of Tirawi's entry permit, Bar-Illan said, "Israel could not do more than that at this stage because he is under the jurisdiction of the

Palestinian Authority. However, Bar-Illan did not rule out the possibility that the PA may be asked to "hand him over" if this is deemed justifiable. Jay Bushinsky contributed to this report.

Anat Galili, spokesperson for the Reform movement's Israel Religious Action Center, related the violence to an attack on non-Orthodox Judaism by Sephardi Chief Rabbi Eliahu Bakshi-Doron, during the inauguration of the new offices of the Chief Rabbinate this week. She noted that an earlier complaint to the police, regarding a sermon by Bakshi-Doron, in which the chief rabbi appeared to condone the assassination of the noo-Orthodox, was still said to be under police investigation.

## Dollar falls to 7-month low, Eurobourses mixed

LONDON (Reuter) - The dollar regained some poise yesterday after plunging to a seven-month low against the yen amid renewed fears of US-Japan trade tensions, while European bourses ended the day mixed after an unsteady start on

Wall Street. Paris stocks and bonds rallied as fears receded about disruption of the timetable for the launch of Europe's single currency. Frankfurt also made gains, but London, after briefly opening at a record level, ended in the minus column

Most of the action was in currency markets. The dollar recovered slight-

ly after falling to its lowest level since November 1996, hit by concerns that a burgeoning Japanese current account surplus would cause trade friction between Washington and Tokyo.

The dollar slumped to 110.70 yen in early trade before clawing its way up to 111.31 in late European trade, still more than a yen below the level seen late on Tuesday. The trade womies caused the yen

to surge across the board and also set a 21-month high against the mark, which was hit by growing optimism about preparations for European monetary union, seen as bad news for the German currency.

The yen's latest advance was powered by overnight news of a big rise in Japan's April current account surplus from a year earlier and comments from US Deputy Treasury Secretary Lawrence Summers urging Japan to avoid rising trade sur-

The market is focusing on the trade numbers, but this is a development that has been apparent for many months now," said Claudio Demolli, currency analyst at Merrill Lynch.

Currency traders were worried that Washington would take up the issue with Tokyo before a meeting of the Group of Seven leading industrial nations in Denver on June

The US seems to be stepping up the war of words, and it looks like we are going to test the 110 (yen) levels," said Steve Hannah, the director of research at IBJ International

Senior Japanese officials tried to mount a damage limitation exercise. Finance Minister Hiroshi Mitsuzuka said that Japan would act to combat excessive currency swings, while Bank of Japan Governor Yasuo Matsushita called for more stability. But their remarks cut little ice with

far to stop the dollar tumbling over 13 percent from a four-and-a-halfyear high of 127.46 yen in little more than a month. The dollar's rebound from its postwar low of 79.76 set in April 1995 has boosted Japanese exporters'

traders because they have failed so

Japan's trade surpluses. in equity markets, Paris was the most buoyant of the day, with stocks ending up more than 1% as European Union policy-makers voiced optimism that differences over a budget stability pact for countries inside monetary union

could be resolved in time for an EU summit in Amsterdam next week. The market really wants to believe France will sign [the stability pact in Amsterdam]," Credit Agricole Indosuez economist Amaud Mares said. "I think they

need to be more cautious." Stocks and bonds had fallen after the new Socialist government on Monday asked for a delay in signing the pact and said it could not accept the deal agreed by the previous conservative administration unless more stress was put on fighting unem-

ployment. The markets got a lift after Dutch Prime Minister Wim Kok, whose country holds the rotating EU presidency, said on Tuesday the French government had told him it did not have to wait to present its policies to parliament on June 19 before ratifyng the pact.

The new finance minister Dominique Strauss-Kahn said yesterday that France was seeking a fast resolution of the issue but wanted to obtain the balance we are seeking."

Banque Paribas analyst Dominique Barbet said the EMU picture would be clearer after conservative President Jacques Chirac and Socialist Prime Minister Lionel Jospin met Chancellor Helmut Kohl at a regular Franco-German summit on Friday.

"France is demanding much more than a small footnote on growth. It is trying to change the nature of EMU." said Mares. In London, an early rally, which

briefly touched a new record, ran out of steam to close down 0.3%. The blue-chip FTSE index had

climbed 4% in the previous four sessions. In Frankfurt, floor trade ended. with modest gains but traders said jitters about European monetary union were still a factor and stocks

#### WALL STREET REPORT

## Shares edge higher

NEW YORK (AP) - Stocks rose modestly yesterday, extending the market's record-setting advance as investors remained confident about the prospects for tame inflation and healthy profits.

On Wall Street, the Dow Jones industrial average rose 36.56 points to close at 7,575.83. The Dow, up 17.5 percent on the year, has oow gained more than 300 points over the past five sessions, setting new highs in the past four.

Broad-market indexes also edged further into record territory. The technology-heavy Nasdaq market turned higher in the afternoon after struggling through much of the session.

#### Rangers keep Laudrup for another season

LONDON (Renter) – Danish Internacional Brian Laudrup said yesterday be would complete his existing contract with Scottish champions Glasgow Rangers, quashing talk that he was moving to English otle holders Manchester United.

Laudrup, who had also been lioked to Ajax Amsterdam, met Rangers chairman David Murray on Tuesday.

"After positive talks I have decided to complete my existing

contract with Rangers," he said. Laudrup has agreed to stay in Scotland unol the end of next season, although he said during negotiadons with Ajax earlier this month he would leave when his contract expires in a year's ome.

#### Bosnich joins the fun as Australia run riot

SYDNEY (Reuter) - Aston Villa goalkeeper Mark Bosnich relieved his boredom by scoring a late penalty as Australia opened their World Cup qualifying campaign with a 13-0 rout of Solomon Islands yesterday.

Bosnich, who barely touched the ball in goal during the match, stepped up to complete the scoring with the last kick of an embarrassingly one-sided Oceania group game.
Strikers Damian Mori and John Aloisi had, by then, satisted

their appetites by scoring five goals each against the hapless south Pacific islanders.

The victory gave Terry Venables his sixth win in as many matches since taking over as Australia oational coach late last

#### Kent, Surrey reach B&H Cup final

LONDON (Reuter) - Kent and Surrey will meet in the final of the Beoson and Hedges Cup to be played at Lords on July 12 after scoring comphatic wins over respective opponents Northants and Leicestershire on Tuesday.

At Canterbury: Kent beat Northamptonshire by 66 runs. Kent 206-8 io 50 overs (T. Ward 78). Northamptonshire 140 all out in 46 overs (P.Strang 4-29).

At The Oval: Surrey beat Leicestershire by 130 runs. Surrey 308-8 in 50 overs (A.Stewart 87, G.Thorpe 79, A.Hollioake 63). Leics. 178 all out in 45.3 overs (P.Nixon 53, M.Bicknell 4-41).

#### Steelers sign Stewart to new four-year deal

PITTSBURGH (Reuter) - The Pittsburgh Steelers signed versatile Kordell "Slash" Stewart to a new four-year contract on

The team did not disclose terms, but Stewart's agent, Leigh Steinberg, announced it is a four-year deal worth \$9 million with a \$2.6 million signing bonus.

Stewart, a second round pick in 1995, had two years left on his original contract. But the Steelers terminated the contract and signed Stewart, who is hoping to become the team's starting quarterback, to a new four-year deal.

#### Try of the tour lifts Lions to victory

OHANNESBURG, June 11 (Reuter) - Two moments of individual brilliance put the British Lions tour of South Africa back on track as they beat the Gauteng Lions 20-14 at Ellis Park yesterday. Following Saturday's 35-30 defeat to Northern Transvaal, tries from scrum-half Austin Healey and John Bentley within a fourminute span io the second half allowed the tourists to shrug off a

lackluster first-half display and recapture the winning habit. Healey's try in the 60th minute, converted by replacement fullback Neil-Jenkins, put the Lions in front for the first time at 10-9 and Bentley then ran 60 meters for one of the finest tries ever scored by a Lion in South Africa.

The Lions trailed 9-3 at half-time due to a poor kicking performance from Mike Catt who succeeded with only one kick from six attempts while Gauteng's Dawie du Toit slotted three penal-ties from four attempts during the same period.

#### Wimbledon's Hammam retains control despite Norwegian deal

LONDON (Réuter) Wimbledon boss Sam Hammam insisted he would remain in charge of the English premier league club despite yesterday's news of a deal to sell a majority stake to two Norwegian million-

The charismatic owner and managing director of the southwest Loodon club, said the arrangement with entrepreneurs Kjell Inge Roekke and Bjoern Rune Gielsten was not a buy-oul and he would continue to run

Willipledon of a day-to-day basis "I'm not selling out...I will be in complete charge of all the key decisions of the club." Hammam

"I am the steering wheel My foot is on the accelerator and my foot is on the brake." Hammam stressed that the deal, which the NTB news agency in Norway said amounted to an 80 percent stake worth \$42 million, would not result in the Dons spending huge sums on new players or increasing

## Surgeon: Graf may not play again

## Tennis star out of Wimbledon, US Open following knee operation

VIENNA (AP) - The surgeon who operated on Steffi Graf's left knee said yesterday there is no guarantee she will ever be able to resume competitive tennis.

Graf underwent a two-hour operation Tuesday to repair cartilage and tendon damage and said she expects to be sidelined for four to six months, missing Wimbledon and the US Open. She is the holder of both Grand Slam titles.

Graf was being transferred yesterday from a private clinic in Vienna to a rehabilitación

center at Gars am Kamp in lower Austria. Graf, 27, issued a statement after the operaoon saying she was "confident that I will return to the sport which I love so much - and in good health." But her surgeon, Reinhard Weinstahl, was less certain about whether she

will be able to resume her career.

That is certainly our aim," he said. "Whether that aim can be reached one cannot say now." Weinstabl said the situation was difficult because of Graf's long history of problems with her left knee. She was out for

three months earlier this year after arthroscopic surgery on the knee.

Weinstabl said all post-operative measures are nothing but an attempt to restore (Graf's health) in an optimal way Whether this will succeed one cannot yet say ... A first step has been made." The surgery came less than a week after Graf's quarterfinal loss in the French Open to Amanda Coetzer.

When she returns, Graf will have a loog hill to climb to return to the mp. Graf, who has won 21 Grand Slam otles,

dropped to No. 3 in the WTA Tour rankings after her quarterfinal loss in Paris. That's her

lowest ranking since 1986. Missing Wimbledon, the US Open and the season-ending Chase Championships in New York would mean that Graf would probably drop to between 15 and 20 in the rankings.

The last time Graf went a year without winning a Grand Slam otle was in 1986 and her lowest world ranking was No. 22 at the end of 1984, just as she was starting her

#### 2-2, Brazil beat \_ England 1-0 \_ in Tournoi PARIS (Reuter) - France and

Italy drew 2-2 (halftime 1-0) in the closing match of the Tournoi de France last night.
France scored through Zinedine

Zidane in the 12th minute and Youri: Djorkaeff in the 72nd. Italy replied with goals from Pierluigi Casiraghi (61) and a 90th-minute penalty by Alessandro Del Piero.

On Tuesday, an expert finish by Romario ended England's six-game with an overdue tonic before the South American championship in a 1-0 victory in Paris. The star striker outran the English

defense, drew goalkeeper David Seaman and slid the ball into the net for the only goal of the game after 64 minutes at the Parc des Princes. Although England won the four-

nation tournament after victories over Italy and France, Brazil ended up the only unbeaten team after a 1-1 draw with France and a 3-3 draw with Italy.

DETROIT (Reuter) - More than a million hockey fans gave Philadelphia Flyers in four their beloved Detroit Red games to win the Stanley Cap. Wings a thunderous welcome Tuesday in celebration of the team's first Stanley Cup victory

in 42 years. Throngs of red-and-white clad Detroiters filled downtown streets as Red Wings players, coaches and Lord Stanley's cup itself rolled past in red Ford Mustang convertibles accompa-

nied by marching bands.
"This is great, We haven't had it for 42 years, and now the Cup is back in Detroit," said 10-yearold Marthew Porter, whose wait for the Cup was a lot shorter than many who came out to honor the NHL champions.

The Red Wines swept the capping a wild NHL playoff run with a 2-1 victory Saturday

right. Detroit was swept in the finals two years ago by the New Jersey Devils, one of many disappointments in the team's quest end the championship drought dating back to 1955.

"They had 42 years to plan it, I think they did a great job," legendary Detroit coach Scotty Bowman said of the celebration, attended by an estimated one million people.

Boy, this beats playing in Philadelphia tonight for game five," he enthused.

#### Bogus bookie in Epsom Derby swindle

LONDON (Reuter) - A bogus bookmaker has swindled an estimated £40,000 from punters at Saturday's Epsom Derby after setting up with a fake permit and disappearing straight after the race. Epsom's racecourse management has received 79 complaints about the

bookmaker, who called himself John Batten, with registered claims for winning bets alone totalling over £10,500. But the total stolen is expected to top £40,000 as most of the bets were for the beaten favorite Entrepreneur.

The Sporting Life, a racing specialist newspaper, said yesterday eager punters were queuing up to take Batten's 6-4 against Entrepreneur who finished a poor fourth behind II-1 Benny The Dip. Most bookmakers were only offering 6-4 ON Entrepreneur. Stephen Wallis, Epsom's racecourse manager, said Batten bought a

bookmaker's badge and "flashed" a bookmaker's permit.

Batten produced plausible betting tickets, although his code name of "Lucan" - the fugitive peer who allegedly bludgeoned the family's namy to death - on the tickets could have aroused suspicions.

#### Rodman's behavior distracts focus from crucial Game 5

the eve of the most important basketball game of the season, the NBA Finals were dragged down Tuesday by the latest plot turns in the continuing saga of "As The Worm Turns." The Chicago Bulls and Utah Jazz were tied going into last night's Game 5, but the series has at times resembled a Dennis Rodman soap opera.

Tuesday's happenings had enough angles to push talk about basketball well into the back-

There is no precedent for a player defaming an entire religious movement, and the league reacted tentatively Tuesday in issuing an official statement.

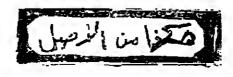

"If that's what he said, it's indefensible," NBA spokesman Brian McIntyre said. "We will be dealing with Dennis after the finals are concluded." The only official reaction Tuesday from the Mormon Church was a no comment.

## Parties refute Ben-Ari link

### Likud, Labor, Yisrael Ba'aliya angry over allegations

By SARAH HONIG and news agencies

Expressions of anger at police innuendo came last night from all three political parties mentioned in connection with the case of Zvi Ben-Ari, formerly known as Gregory Lerner. According to police leaks, MKs from Yisrael Ba'aliya, Labor and Likud, as well as several ministers, might be questioned in the next few days about possible links with the so-called Russian mafia.

The leaks bave resulted in considerable tension, since, at least for the record, there is no indication as to which MKs the police are targeting.

In all three parties it was maintained that no one has any idea whom the police suspect, though if ministers are involved, the guess was that they would probably be from Yisrael Ba'aliya.

Police Inspector-General Assaf Hefetz had told Israel Radio on Tuesday that several politicians would be called in as part of the investigation of Ben-"We fear that Gregory Lerner

gave monetary support to political parties and the question is if they knew who they were getting the money from and what its source was," Hefetz said.

"Everyone who can help clarify the picture will be called in

Gregory Lerner

for questioning and this includes lawmakers and ministers," be said.

Ben-Ari is suspected of defrauding Russian banks of \$85 million and of involvement in murder. Ben-Ari's attorney, Mosbe Friedman, argues that the accusations against bis client are based on forged documents supplied by bis enemies in the Russian police.

· It was pointed out in all three parties yesterday that Ben-Ari was obviously not guided by any ideological impulses because he contributed funds to all three parties and had offered to belp in campaign broadcasts via the Russian satellite channels picked up in Israel.

Labor's former secretary-general Nissim Zvilli admitted yesterday that Ben-Ari sought to finance election advertising and that he had approached Zvilli about it. Zvilli took the matter to MKs Moshe Shahal and Haim Ramon, who both thought that would violate laws on campaign financing and

campaign broadcasts.
"We politely turned the offer down," Zvilli reported.

According to some reports, Ben-Ari approached Ehud Barak, when he managed Shimon Peres's reelection cam-

In the Likud, MK Michael Eitan said be knows "of absolutely no Likud MK wbo dealt with Lerner and if the police know differently, then tbey should forthwith make public the names of their suspects because by not doing so they are casting aspersions at all Likud MKs."

The party spokeswoman refused comment, saying that she is "not in the habit of reacting to anonymous leaks. We don't think there is any truth in any of this."

Ben-Ari at one point reportedly registered as a Likud member, but the party pointed out that anyone may do so and that there is no investigation into the affairs of each of the 200,000 party members.

Yisrael Ba'aliya admits that prior to the formation of the party, Ben-Ari bad "made a donation to the Zionist Forum, but there was nothing illegal

from these channels for Labor, about that and that was not attached to buying our political clout. There was no quid pro quo. We received contributions from other people as well and be contributed to other parties too," said Absorption Minister Yuli Edelstein.

Internal Security Minister Avigdor Kahalani (Third Way) says that an activist for his party reported that Ben-Ari wanted to meet him, but that be had

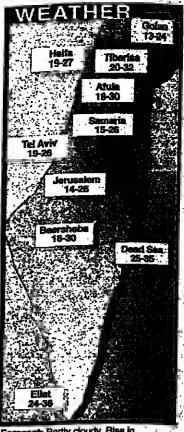

refused. Kahalani said on Tuesday that be was approached around six months ago, "by someone in Ashkelon who wished to introduce me to someone who wanted to donate money to the Third

When the person who wished to meet me was described as having a Mercedes and being surrounded by bodyguards, I immediately gave him a nega-tive answer," Kahalani said. "I didn't inquire further into the identity of the would-be donor. I just said no."

Kahalani said be was concerned that the system of party primaries has created new temptations for politicians.

"Those who want to be elected need a lot of money. Those running on the national lists of the Likud and Labor parties need at least \$100,000, and that money could come from undesirable places," Kahalani said.

#### 'NY Times:' Hundreds more Swiss accounts uncovered

By Jerusalem Post Staff.

Swiss banks have discovered hundreds more accounts that may have belonged to Holocaust victims and thousands of additional Holocaust-era accounts that they cannot explain, according to yesterday's editions of The New York Times.

These disclosures build on the made last week in Jerusalem Bern to the Volcker Committees panel headed by former Federal that is due to begin forensic audits of the war-era accounts next week: The significantly higher numberof accounts had been expected and, in fact, is likely to rise because the Volcker Committee is to review all dormant accounts opened in Swiss banks between 1933 and 1945.

The Swiss Bankers Association announced two years ago that the banks had uncovered 775 Holocaust-era dormant accounts, valued at some \$32 million.

Those accounts apparently were the so-called "foreign accounts." which were made by depositors whose addresses were outside of Switzerland. However the Times said, the banks have found at least 225 more accounts, worth roughly \$8 million. 8 million.
In addition, there are another

15,000-plus dormant accounts that were opened by Swiss nationals during the war years, the Times reported, citing a statement released Tuesday night by the Swiss Bankers Association.

The association told the Times that the amounts contained in those accounts are small, but it pledged that "the Volcker Committee will: fully examine whether dormant: accounts opened by Swiss citizens? prior to 1945 were opened for the benefit of Holocaust victims."

At a congressional hearing last December, Volcker outlined broad role for his committee, with out regard to the address of the depositor. The committee's task, said, is to prepare "an accounting and financial record of accounts Swiss banks originating with the fearing and facing Nazi persecution and which have lain dormant with out identified claimants.

### Acre Festival threatened by politics

#### By HELEN KAYE

The funding brawl surrounding this year's Acre Festival of Alternative Theater has intensified. following an emergency meeting of the Theater Artists Forum at Tel Aviv Tzavta on Tuesday morning. Arts and Culture Administration head Dr. David Alexander has been

given 48 hours to name a producing body for the festival with the authority to disburse funds.

The demand is one of four in a letter to Education, Culture and Arts Minister Zevulun Hammer. Other demands include the appointment of a committee to examine the "neglect and delays which bave brought the Acre Festival to its current condition" and securing festival funding from the ministry "at a figure that is not less than last year's."

COMMENT

The meeting and the letter followed an announcement by Hammer that the annual festival would go ahead during Succot as scheduled. His announcement came after a week of mudslinging set in motion by the resignation of Acre Festival artistic director Yitzhak Weingarten.

Weingarten had resigned because the promised public funding had not come through. According to Alexander, red tape

caused by a change in the structure of the Acre Festival public trust was responsible for the funding

This letter is totally unnecessary," fumed Alexander on Tuesday afternoon, accusing the theater artists of acting in bad faith. "The money is in the bank and the foundation can certainly disburse the funds."

## Fix the festival or cancel it

The Acre Festival funding fracas is unseemly. Moreover, there is a great deal of disingenuousness floating around. At this point both sides seem to have political agendas that have very little to do with

as a showcase for alternative theater. It was mounted on a shoestring budget, conditions were primitive, but Acre was definitely different and sometimes even exciting. That bas not been the case for, at the very least, the last five years.

anything on our repertory stages. Acre is stagnant and theatrically irrelevant. It should either be drastically overhauled, pruned and redefined, or canceled. Helen Kaye

## **Romanian Jews** defend country against asset claims

#### By Jerusalem Post Staff

Romanian Jewish leaders on Tuesday defended Bucharest against accusations that it stalled the return of assets seized from Jews during World War II, and said they would protest the charges made by the World Jewish Restitution Organization.

The government has already returned five community properties, and others will follow," Nicolae Cajal, bead of the Federation of Jewish communities, said at a news conference. "Romania's present government and its president back full restitution of the properties seized from all ethnic groups."

Cajal, whose federation represents Romania's 14,000 remaining Jews, said he would protest to the WJRO, which last week criticized Romania, Poland and the Czecb Republic as countries slow to return assets confiscated from Jews by the Nazis and later nationwill use all the means accessible to prevent the Czecb Republic, Poland and Romania [from] joining NATO until these countries return all the property to their local Jewish communities,"

That comment irritated American officials, who have been urging Central and Eastern European nations to repatriate Jewish property, but without conditions. Instead, property restitution is distinct from the US efforts to admit the Czech Republic, Poland and Romania into NATO. Lavie's comment also widened the distance between the WJRO

and the Warsaw and Prague Jewish communities, whose relations already were acrimonious. Warsaw and Prague have accused the WJRO of trying to dominate restitution efforts, in much the same manner that Soviet advisers once dictated terms. The WJRO counters that Warsaw and Prague are too small to legitimately claim to represent the pre-war Jewish populations in their states.
